DESIGNED BY RIDERS

FOR RIDERS

Polaris Engineered Riding Gear is high-quality outdoor gear designed for a wide range of riders, riding styles and other outdoor activities. It is intentionally designed to work together as a smart solution with the best fit and optimal comfort so that you can stay out longer, doing what you love.

TECH54

Every Polaris riding jacket, bib, monosuit and boot is made with TECH54, an exclusive technology from Polaris.

Visit P. 7 to learn more.

HELMET
FACE THE DAY WITH CONFIDENCE.
The ideal snowmobile helmet will offer proper fit, all-day comfort and personal style.

GOGGLES
EVERY DAY. ANY CONDITION.
We offer a range of styles to fit your look and lens color options to enhance your vision in virtually any light condition.

JACKET **TECH54**
OWN THE EXTREMES.
All of our riding jackets are purpose built by our own team of technical experts to provide cold weather comfort, flexibility and a wide range of motion.

BIBS **TECH54**
LIVE IN YOUR ELEMENT.
Warmth, comfortable fit, and flexibility are key in choosing the right bibs. Polaris bibs provide a wider range of motion in the knees, thighs and waist to move with you as you ride.

BALACLAVA
SHIELD THE ELEMENTS.
Keep your face and neck protected from harsh conditions with a balaclava. These are intentionally designed to keep you warm and comfortable with windproof material and an anti-fog design.

LAYERING
LAYER ON THE WARMTH.
Choose the right layers for your conditions. Start with our moisture-wicking base layers to help maintain proper body temperature, then add middle insulating or a heated layer depending on the weather.

GLOVES **TECH54**
GRAB HOLD OF THE ADVENTURE.
All our gloves are designed to keep the bitter cold out using a powerful combination of insulated materials and moisture-wicking linings.

BOOTS **TECH54**
PERFORMANCE, WARMTH AND COMFORT.
Cold feet ruin more snowmobile rides than anything else. Stay warm and dry all day with the Switchback 2.0 Boot which features hypergrip traction and a BOA® lacing system for easy on and off.

TECH54

TECHNOLOGY TO OWN THE EXTREMES

STAY WARM AND DRY IN RIDING GEAR WITH TECH 54.

Our Apparel Center of Excellence developed TECH54—a waterproof, breathable membrane featured in every Polaris jacket, bib and monosuit. This exclusive technology allows perspiration to escape and keeps water out, so no matter how you ride, or where you ride, you stay dry, warm and comfortable.

WATERPROOF/BREATHABLE

TECH54 is our single-layer bonded laminate technology that brings waterproof breathability and riding comfort to a new level in every Polaris jacket and bib.

DWR

RESIST MOISTURE

Every Polaris jacket and bib is treated with a DWR (Durable Water Repellent) coating to prevent precipitation so your gear doesn't get soggy. The DWR coating causes water to bead up and run off, keeping you comfortable and dry.

3M Scotchlite™ Reflective Material

RIDE SAFER

Proven in every weather condition, patented 3M® Scotchlite® Reflective Material is placed meticulously on each garment and nighttime tested to provide visibility from every angle.

YKK® ZIPPER

STAY PROTECTED

Quality construction you can trust.

3M Thinsulate INSULATION

BE WARMER

3M® Thinsulate® Insulation is zonally mapped on insulated apparel to provide extra insulation in high wind exposure areas.

HOW IT WORKS TO ELEVATE YOUR RIDE.

5k/5k, 10k/10k or 20k/20k

WATERPROOF

The first number (5k, 10k or 20k) refers to the waterproof rating.

BREATHABILITY

The second number (5k, 10k or 20k) refers to how much water vapor the material can expel through the outerwear to release heat—and keep you dry from the inside.

DIFFERENT RATINGS FOR DIFFERENT RIDES

Choose your TECH54 rating based on the weather conditions and your level of exertion.

5k/5k: best for colder and drier snow conditions and moderate activity.

10k/10k: best for wet snow conditions and high-activity riding.

20k/20k: best for extremely wet snow conditions and the most aggressive riding.

DIVE DEEPER INTO TECH54 AT

LAYERING

Anyone can layer up. But the key to staying warm and comfortable is picking the right layers for the conditions. Start with our moisture-wicking base layers to help maintain proper body temperature, then add a middle insulating or heated layer depending on the conditions.

LIFESTYLE

Polaris hats, tees and jackets show others how you choose to live your life. This is well-crafted clothing that's purpose-built to keep you comfortable outdoors—right where you want to be.

BASE & MID-LAYERS

Quick-drying and quick-wicking. Rests against your skin to regulate your overall body temperature by wicking away moisture. Insulating layers for the right level of warmth for your riding conditions.

APPAREL

MOUNTAIN APPAREL
Uninsulated outerwear made of TECH54
20k/20k material.

CROSSOVER APPAREL
Insulated outerwear made of TECH54
10k/10k material.

TRAIL APPAREL
Insulated outerwear made of TECH54
5k/5k material.

ECE 22.06

DOT & ECE 22.06 CERTIFIED
The Department of Transportation (DOT) standard is enforced by the National Highway Traffic Safety Administration (NHTSA). For a helmet to be DOT-certified, it must pass a series of impact tests.

The Economic Commission for Europe (ECE) standard, R 22.06, is the most common helmet standard used internationally, as it is recognized by over 50 countries. To be ECE 22.06 certified, the helmet must pass a series of rigorous tests by an independent third-party lab.

TECH54
A waterproof and breathable membrane bonded to the shell fabric to block moisture from entering while allowing vapor moisture to escape from the inside.

SUPERIOR DURABLE WATER REPELLENCY
A Superior DWR coating causes water to bead up and run off, preventing precipitation from saturating the exterior of an outerwear piece.

3M® THINSULATE® INSULATION
3M® Thinsulate® Insulation is warm yet lightweight, powerful yet thin. It helps trap body heat while allowing moisture to escape.

3M® SCOTCHLITE® REFLECTIVE MATERIAL
Patented 3M® Scotchlite® Reflective Material provides nighttime visibility from every angle.

YKK® ZIPPERS
The YKK® Fastening Products Group is trusted worldwide for impeccable production standards and thorough quality control processes for slide fasteners, plastic hardware, hook-and-loop fasteners, webbing tapes and snap-and-button products.

BOA® LACING SYSTEM
The BOA® lacing system is easier to get on and off than traditional lace-up boots. Simply push to engage, turn to tighten and pull for quick release.
