IDLES

ADD ANY VEHICLE TO YOUR GROUP RIDES

The Trail Tech Voyager Pro GPS seamlessly connects with 7S Display powered by RIDE COMMAND. Join the group and ride. The Voyager Pro is the digital gauge option for riders without a Polaris MATRYX sled. The Voyager Pro is compatible with RIDE COMMAND technology for streamlined buddy tracking of your entire group, and it comes with several other connected features.

THE CONNECTED RIDER'S GPS

Featuring Polaris Group Ride compatibility, custom maps, Bluetooth[®], a 4" color touchscreen and full vehicle integration with gauges.

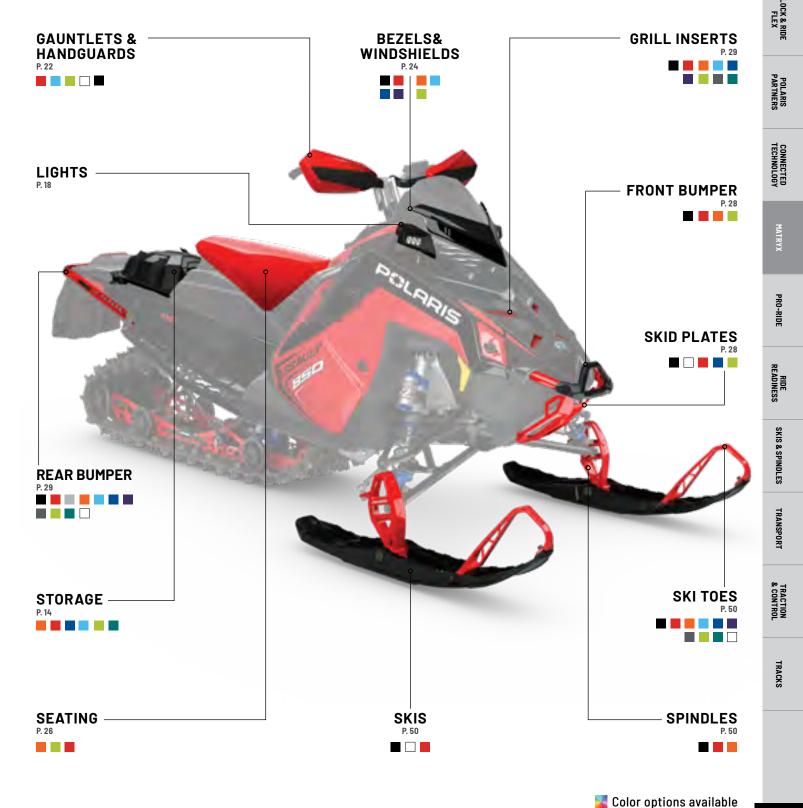

FRACKS

• Pre-Loaded Base Maps: The map screen is enabled with base maps, topography lines, hill shading, and select trails. Record or load GPS trails and riding areas, and transfer to a PC.

• Vehicle Information: Integrates with your vehicle providing vital ride data such as engine temp, RPM, speed, and more. Bluetooth® enabled for intercom, phone and media controls.

CUSTOMIZE YOUR SNOWMOBILE

ACCESSORIES Enhance an already great sled by customizing it for the ultimate in style and personalization. Choose color-matched accessories to design your sled to reflect your unique personality.

MATRYX

The rider-first MATRYX platform delivers instinctive, intuitive control with breakthrough rider dynamics and such seamless accessory integration that rider and machine become one. These accessories look, feel and function like integral elements of the sled.

PROTECT YOUR SLED FROM THE ELEMENTS

POLARIS

KEEP YOUR SLED LOOKING NEW WITH A POLARIS COVER

- Keep snow and ice off of your sled in between days of riding
- Protect your sled from dirt and slush while trailering

MATRYX COVERS

- Protect from harmful UV rays that could fade your coloring over time
- Choose between premium polyester for maximum protection and trailering or the overnight cover for in between rides

THE POLARIS ADVANTAGE WHY SHOULD YOU CHOOSE **A POLARIS COVER?**

- 1. INTENTIONALLY DESIGNED for your sled and features easy to use cinch strap technology for a secure hold and perfect fit
- 2. PREMIUM MATERIALS provide advanced protection and lasting durability through the elements
- 3. RIDER-CENTRIC FEATURES such as integrated zippers and straps make Polaris covers easy to use with quick access

PEILARIS

RACTION

TRACTION & CONTROL

RIP WITH AN IRON GRIP

Whether you're replacing your carbides or looking to add more traction and control for enhanced performance, premium Woody's® stud kits and carbide runners are exclusively engineered for your Polaris snowmobile.

CONTROL FOR HOW YOU RIDE

TUNNEL PROTECTION

Required protection for when you stud, these "wear strips" protect your tunnel and vital cooling components from damage.

CARBIDES

Replacing or upgrading, add the right amount of ski control to match your track length, studding pattern and riding style.

STUDS

Choose the right length stud for your track lug and then select a pattern to best suit your riding style for a touch of added control to monster holeshots.

CARBIDE WEAR STRIPS

Carbides need to be sharpened or replaced periodically due to normal wear and use. Rocks, cement, pavement and road crossings all contribute to carbide wear.

3"-4" CARBIDE
Perfect for sleds with a 121" track with 96
studs or less or sleds with 1" lugs taking
corners at moderate speeds

CHOOSE YOUR LENGTH
6" CARBIDE
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

Ideal for sleds in the 136" track range with up to 1¼" lugs or shorter track sleds with more than 96 studs

TRACTION & CONTRO

# FOUR KEYS TO TRACK SELECTION

#### LENGTH

The inside circumference of the track is calculated as the drive pitch multiplied by the number of track segments. It must be correct to the nearest inch for proper fit without additional modifications to the skid frame.

#### **DRIVE PITCH**

The drive cog center distance around the circumference of the cogs on the drive axle. It must match the existing track or the drive cogs must be changed.

#### WIDTH

The measurement across the track governed by the width of the tunnel.

#### LUG HEIGHT

The distance lugs extend above the track surface.

- Trail: 1" <1.5"
- On/Off Trail: 1.5" <2"
- Deep Snow: 2" and greater

#### SEE ALL TRACKS OPTIONS AT POLARIS.COM/TRACKS

# YOUR TRUSTED PARTNER FOR EVERY MILE AND EVERY ADVENTURE

#### DESIGNED

The inception of every vehicle, starts with parts. All Polaris parts and lubricants are developed with hundreds of engineers, specifically for each of our machines, with our riders top-of-mind. Over 3,000 design hours go into each part and lubricant.

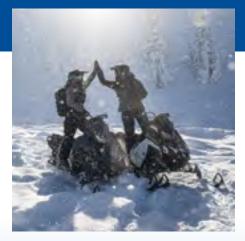

#### **TESTED**

Every component undergoes thousands of dyno hours, with over 1,200 hours dedicated to validation. They're rigorously tested at the proprietary Polaris Proving Grounds and then accumulate more than 20,000 miles in the field, across various conditions, elevations and terrains.

#### TRUSTED

Going the distance on our parts and lubricants means more time out riding and less time in your garage. We're riders, who want to deliver an unmatched riding experience for the long-haul. Backed by 76 years of expertise in developing snowmobiles.

# MAINTENANCE **PARTS & FLUIDS**

Engineered with precision and tested under the harshest conditions, our heavy duty parts deliver unmatched strength and reliability. Designed and tested for our most demanding riders, these are our must trusted components.

### MAINTENANCE SCHEDULE

Check your owner's manual for additional recommended service items and vehicle-specific timing.

Check out the Garage Accessories on PG. 70 to easily tackle all your maintenance needs.

#### **PRE-SEASON**

ENGINE OIL: Fill to Recommended Level

**BELTS & SERVICE PARTS** 

# POLARIS ENGINEERED **DRIVE BELTS**

# HIGH-PERFORMANCE **SERVICE PARTS**

When we're engineering our high performance components, we keep serviceability in mind. We build our products as a system so that anyone with the right tools and training can easily maintain their sled, get back to riding, where you belong.

Our engineers at Polaris create parts that push the limits, and are meant for the long haul. However, over time, your sled may eventually need service.

# **OVER 100,000** PARTS AVAILABLE!

#### **OUR INVESTMENT PER BELT**

- 20,000 miles (32,187 kilometers) of field testing
- · Thousands of dyno hours
- 18+ months of development (3,000+ design hours) per belt
- 1,200+ vehicle validation hours
- Collaboration with powertrain and clutch engineers

#### YOUR ADVANTAGE

- No clutch recalibration
- · Less wear and tear due to heat
- Ensure maximum performance of your vehicle

FIND THE RIGHT BELT FOR YOUR MACHINE

· More time out riding, less time wrenching

3211115 (600 CLEANFIRE/650 PATRIOT/PROSTAR S4 (INDY))	1.46" (37.10mm)	46.77"	PB0 Belt					
PRO-RIDE: RUSH, SWITCHBACK, SWITCHBACK ASSAULT, INDY, VOYAGEUR, PRO-RMK, RMK, RMK ASSAULT								
3211115	1.46" (37.10mm)	46.77"	PB0 Belt					
3211122	1.46" (37.10mm)	46.77"	Aramid Rubber Belt					
3212350 (550 LIBERTY)	1.29" (32.77mm)	42.72"	Aramid Rubber Belt					

*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive-belt deflection (tension), clutch offset and alignment must be adjusted properly. See your service manual for further details on drive-belt measurement inspection

## **DESIGNED BY RIDERS FOR RIDERS**

Polaris Engineered Riding Gear is high-quality outdoor gear designed for a wide range of riders, riding styles and other outdoor activities. It is intentionally designed to work together as a smart solution with the best fit and optimal comfort so that you can stay out longer, doing what you love.

FACE THE DAY WITH CONFIDENCE. The ideal snowmobile helmet will offer proper fit, all-day comfort and personal style.

#### GOGGLES

EVERY DAY. ANY CONDITION. We offer a range of styles to fit your look and lens color options to enhance your vision in virtually any light condition.

### JACKET TECH54

#### **OWN THE EXTREMES.**

All of our riding jackets are purpose built by our own team of technical experts to provide cold weather comfort, flexibility and a wide range of motion.

### BIBS TECH54

9

LIVE IN YOUR ELEMENT. Warmth, comfortable fit, and flexibility are key in choosing the right bibs. Polaris bibs provide a wider range of motion in the knees, thighs and waist to move with you as you ride.

Every Polaris riding jacket, bib, monosuit and boot is made with TECH54, an exclusive technology from Polaris.

Visit P. 78 to learn more.

#### BALACLAVA

#### SHIELD THE ELEMENTS.

Keep your face and neck protected from harsh conditions with a balaclava. These are intentionally designed to keep you warm and comfortable with windproof material and an anti-fog design.

#### LAYERING

#### LAYER ON THE WARMTH.

Choose the right layers for your conditions. Start with our moisturewicking base layers to help maintain proper body temperature, then add middle insulating or a heated layer depending on the weather.

### GLOVES [TECH54]

#### **GRAB HOLD OF THE ADVENTURE.**

All our gloves are designed to keep the bitter cold out using a powerful combination of insulated materials and moisture-wicking linings.

### BOOTS TECH54

#### PERFORMANCE, WARMTH AND COMFORT.

Cold feet ruin more snowmobile rides than anything else. Stay warm and dry all day with the Switchback 2.0 Boot which features hypergrip traction and a BOA® lacing system for easy on and off.

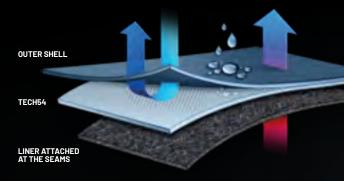

## TECHNOLOGY TO OWN THE EXTREMES

#### STAY WARM AND DRY IN RIDING GEAR WITH TECH 54.

Our Apparel Center of Excellence developed TECH54—a waterproof, breathable membrane featured in every Polaris jacket, bib and monosuit. This exclusive technology allows perspiration to escape and keeps water out, so no matter how you ride, or where you ride, you stay dry, warm and comfortable.

#### WATERPROOF/BREATHABLE

TECH54 is our single-layer bonded laminate technology that brings waterproof breathability and riding comfort to a new level in every Polaris jacket and bib.

#### DWR

#### **RESIST MOISTURE**

Every Polaris jacket and bib is treated with a DWR (Durable Water Repellent) coating to prevent precipitation so your gear doesn't get soggy. The DWR coating causes water to bead up and run off, keeping you comfortable and dry.

#### **RIDE SAFER**

Proven in every weather condition, patented 3M[®] Scotchlite[®] Reflective Material is placed meticulously on each garment and nighttime tested to provide visibility from every angle. 00000000

#### YKK[®] zippers

#### STAY PROTECTED

Quality construction you can trust.

### 

#### **BE WARMER**

3M[®] Thinsulate[®] Insulation is zonally mapped on insulated apparel to provide extra insulation in high wind exposure areas.

### HOW IT WORKS TO ELEVATE YOUR RIDE.

### 5K/5K, 10K/10K OR 20K/20K

#### WATERPROOF

The first number (5k, 10k or 20k) refers to the waterproof rating.

#### BREATHABILITY

The second number (5k, 10k or 20k) refers to how much water vapor the material can expel through the outerwear to release heat—and keep you dry from the inside.

### DIFFERENT RATINGS FOR DIFFERENT RIDES

Choose your TECH54 rating based on the weather conditions and your level of exertion.

**5K/5K:** best for colder and drier snow conditions and moderate activity.

**10K/10K:** best for wet snow conditions and high-activity riding.

**20K/20K:** best for extremely wet snow conditions and the most aggressive riding.

DIVE DEEPER INTO TECH54 AT **POLARIS.COM/TECH54** 

# MEN'S & WOMEN'S RIDING GEAR

Our innovative designs and advanced materials keep you warm, dry, and happy - head to toe - on every ride. Our jackets, bibs, and monosuits offer ultimate protection and comfort, while our helmets provide the perfect designs and features for any rider.
